

A Socially Conscious Shelters' fundamental goal is to create best outcomes for all animals, which is achieved through:

- Ensuring every unwanted or homeless animal has a safe place to go for shelter and food

- Placing every healthy and safe animal

- Assessing the medical and behavioral needs of homeless pets and ensuring these needs are thoughtfully addressed

- Aligning shelter policy with the needs of the community

- Preventing suffering and making appropriate euthanasia decisions

- Considering the health, wellness and safety of animals for each community when transferring animals between shelters

- Enhancing the human-animal bond through safe placement of animals

- Fostering a culture of transparency, ethical decision making, professionalism, continual learning and collaboration throughout the organization
